

# Mineral\* Music

\*mineral = naturally occurring inorganic solid

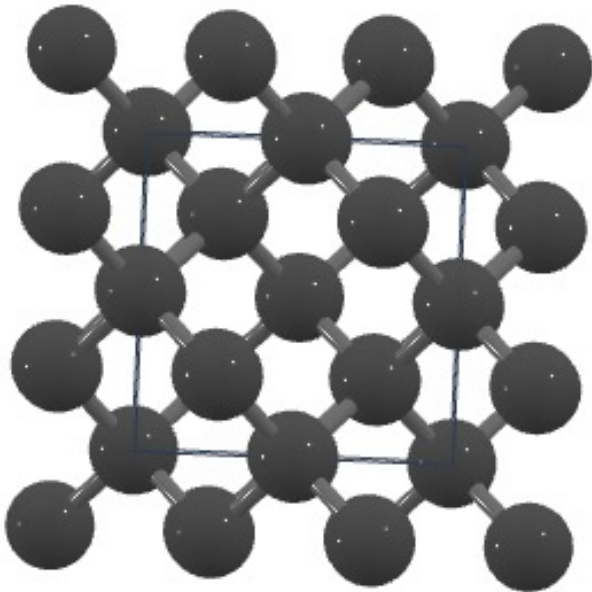

Dr Lucy Whalley  
Assistant Professor in Physics  
Northumbria University

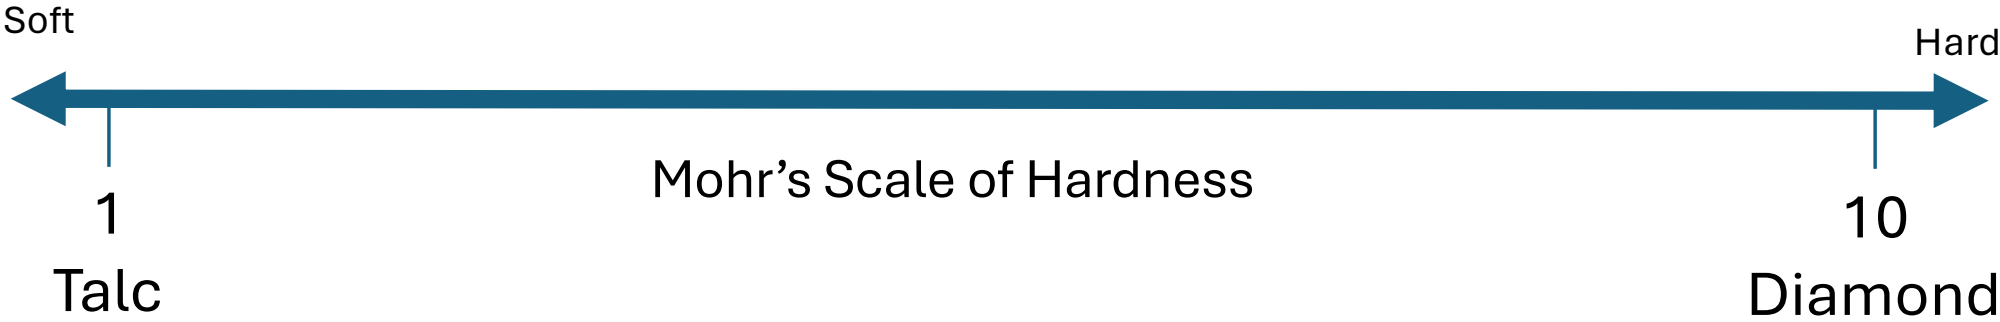

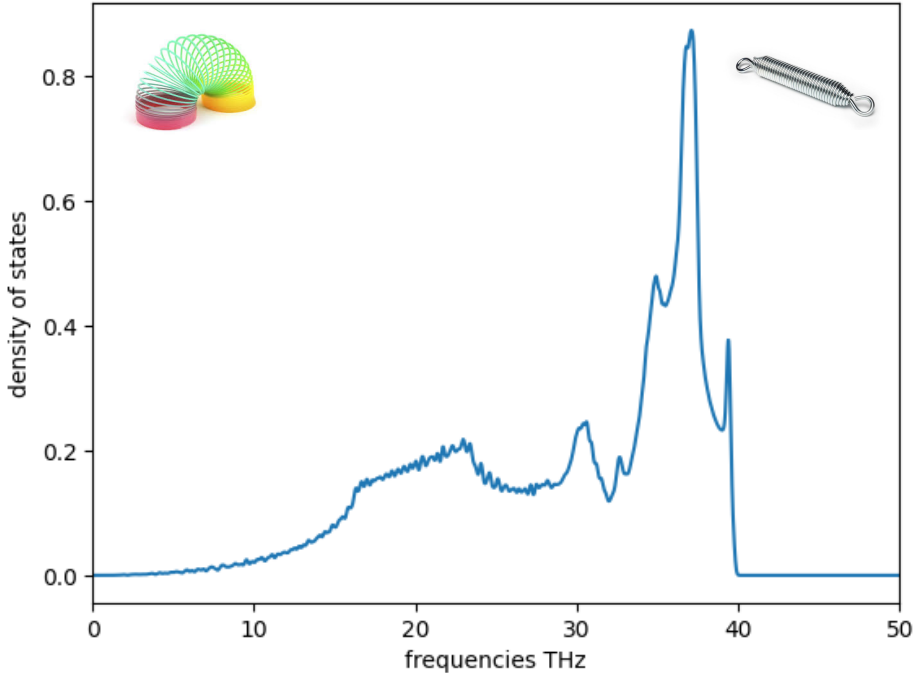

# Diamond (C)

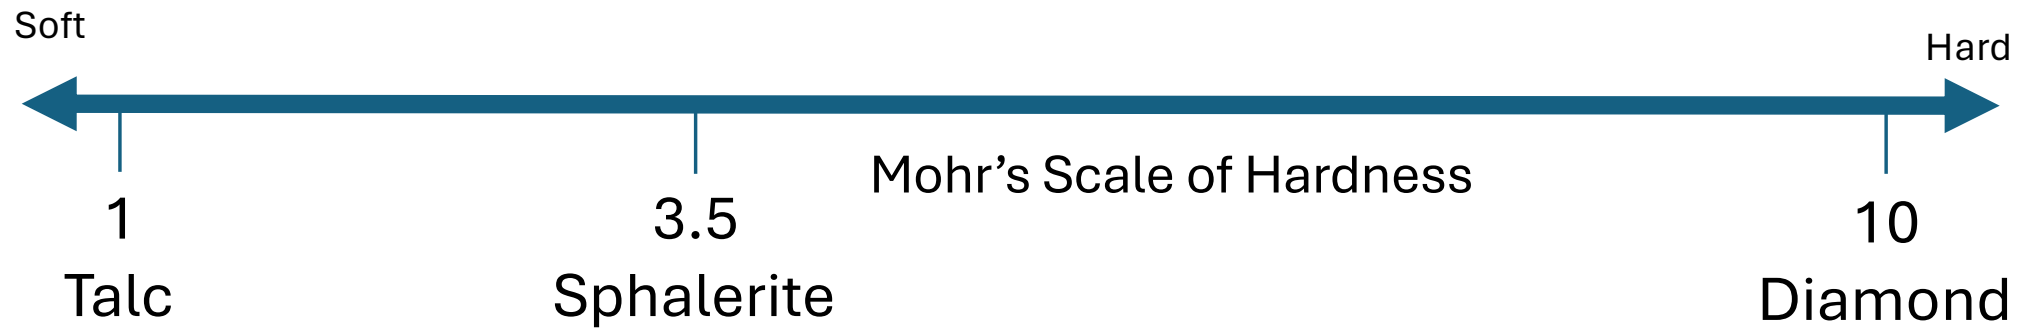

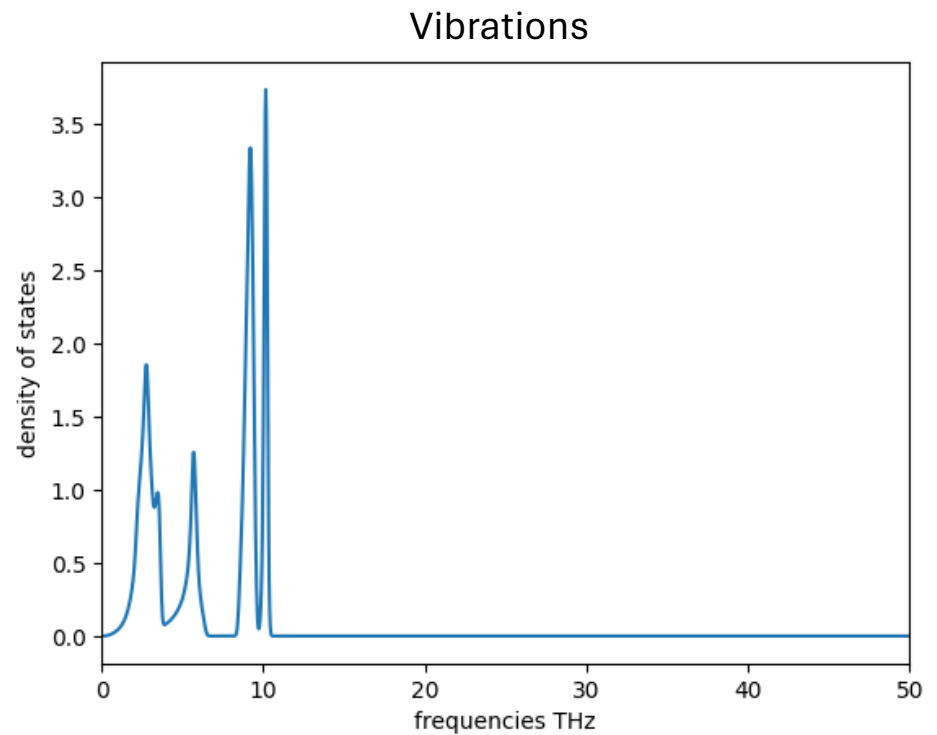

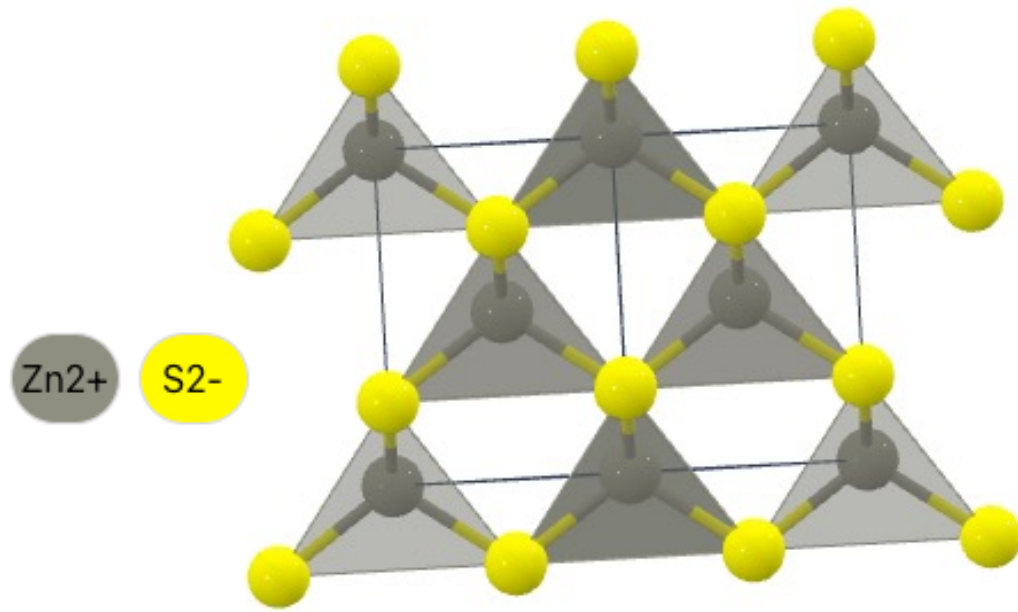

C0+

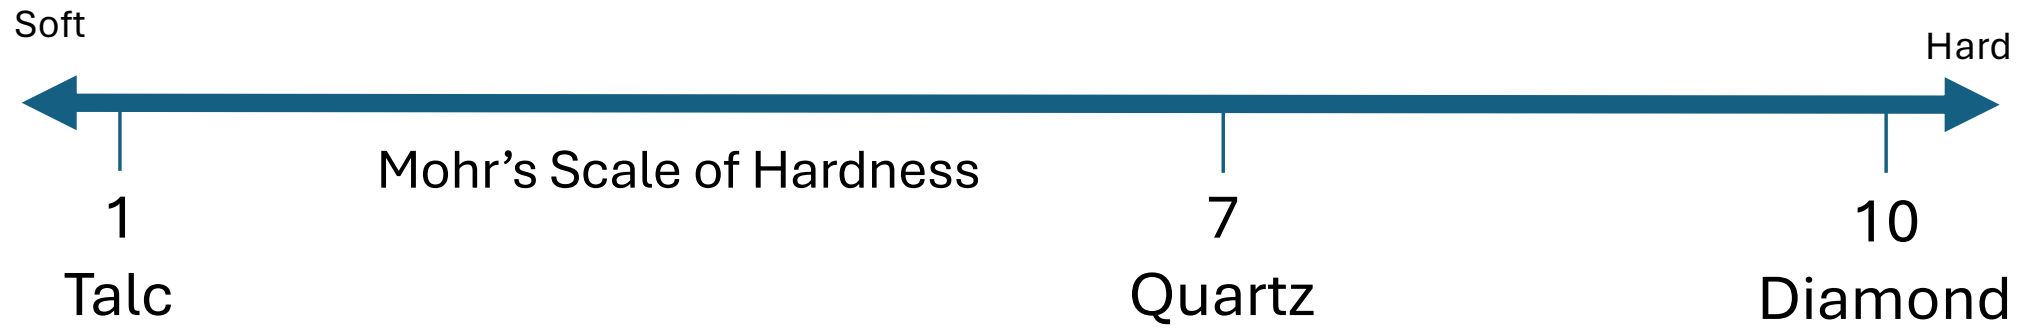

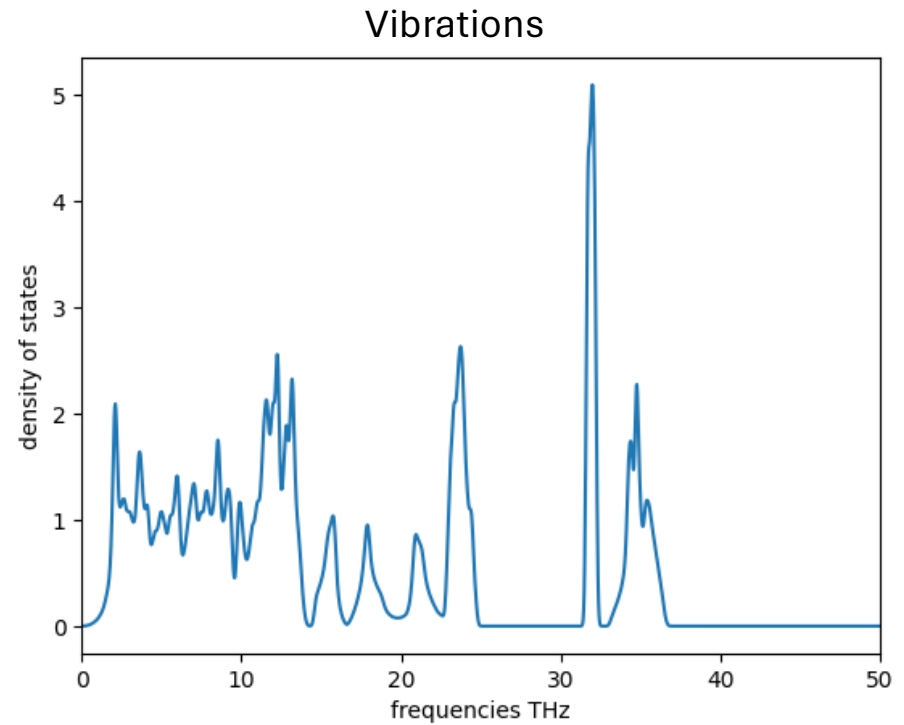

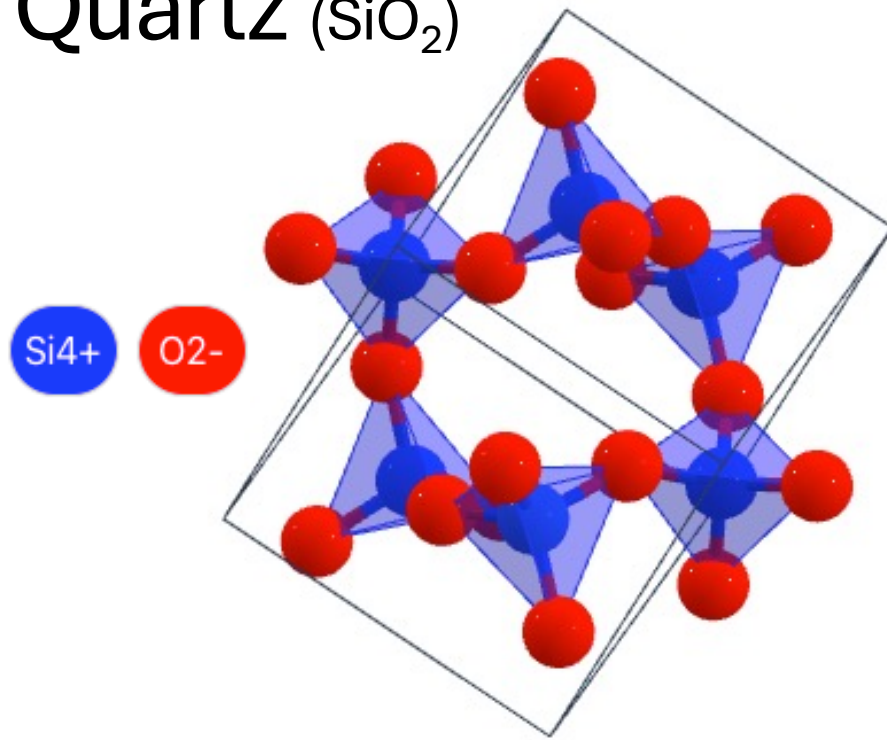

Vibrations

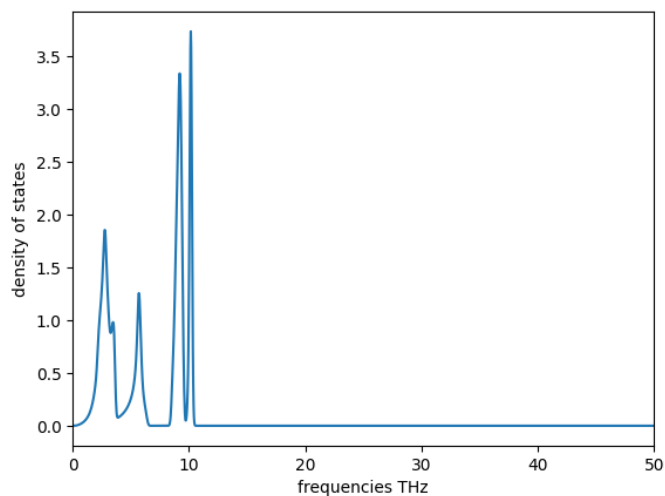

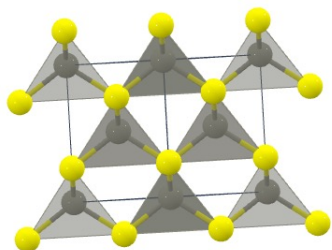

# Sphalerite (ZnS)

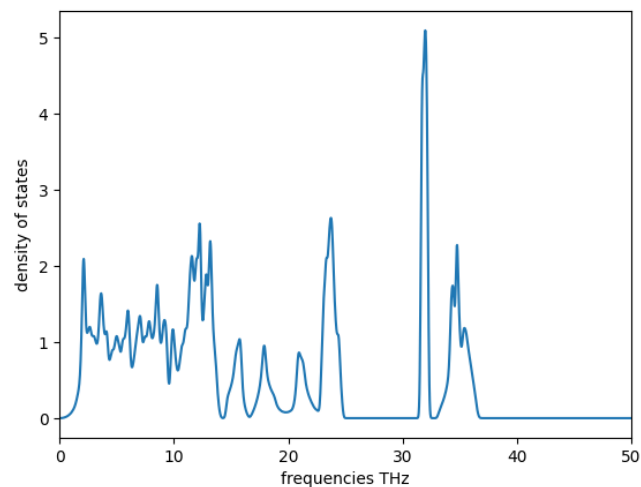

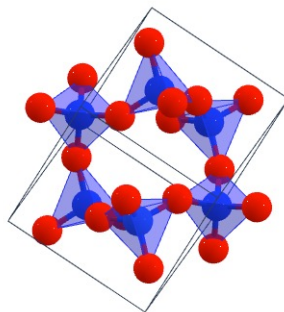

# Quartz ( $\text{SiO}_2$ )

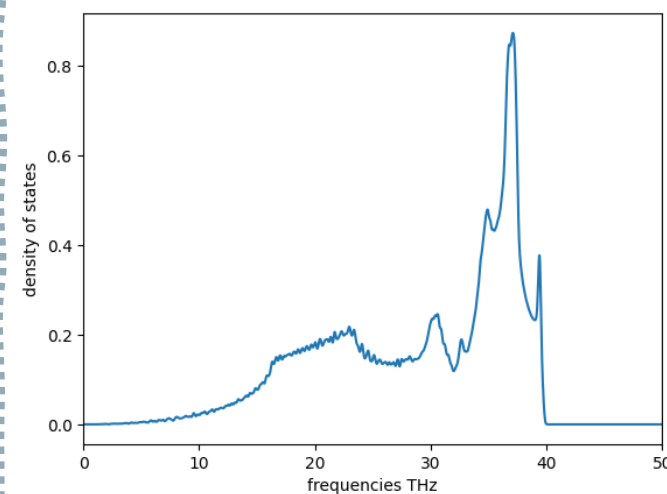

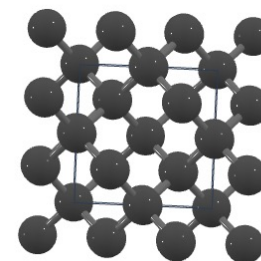

# Sphalerite ( $\text{ZnS}$ )

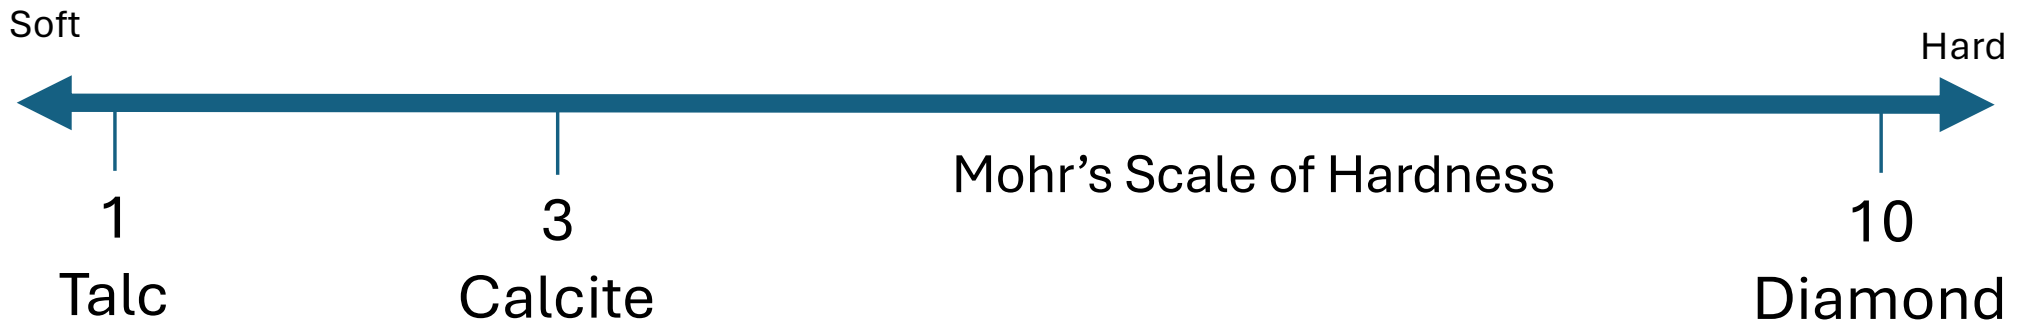

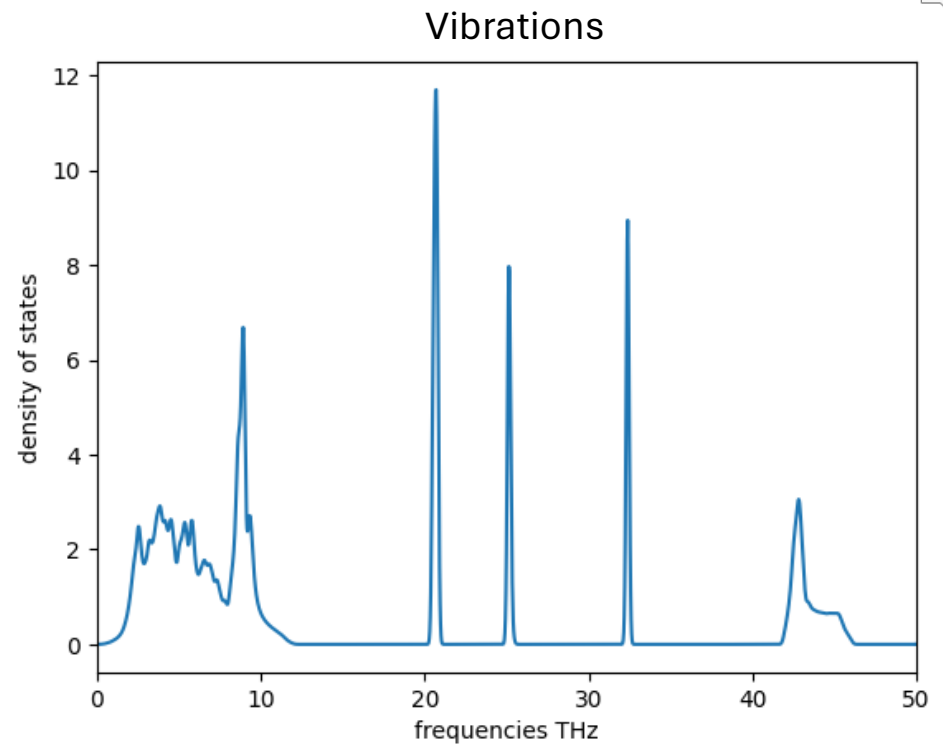

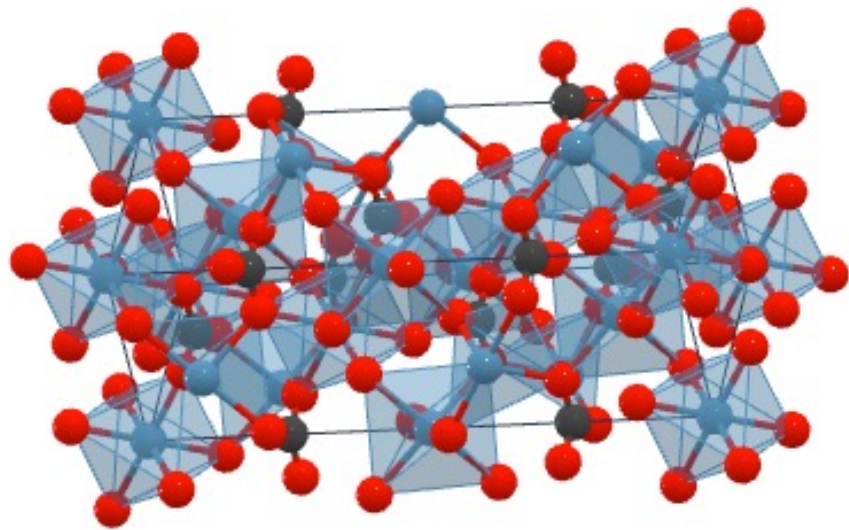

# Quartz ( $\text{SiO}_2$ )

# Diamond ( $\text{C}$ )

# Calcite ( $\text{CaCO}_3$ )

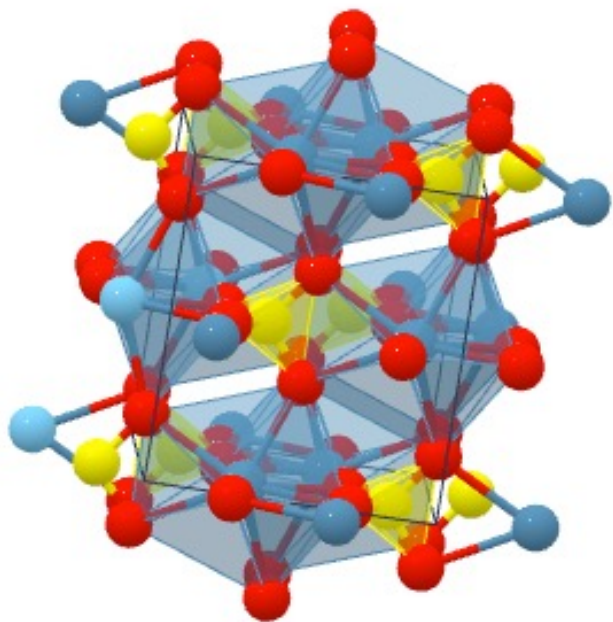

Which mineral  
sounds like this?...

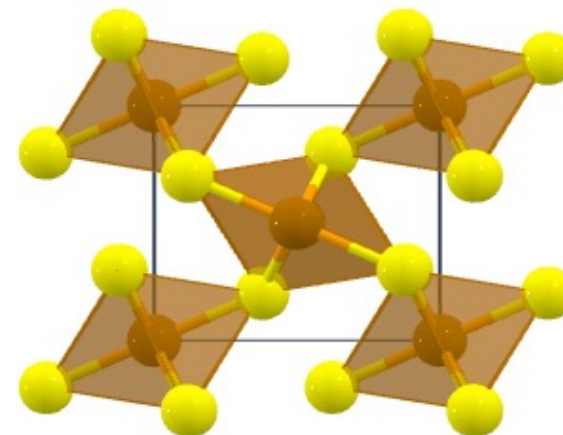

# Anhydrite ( $\text{CaSO}_4$ )

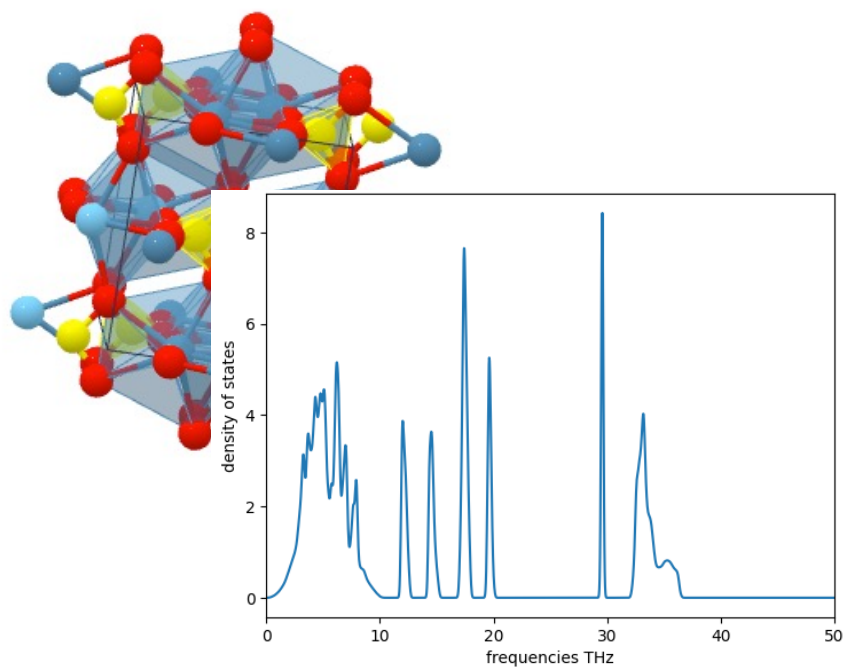

# Pyrite ( $\text{FeS}_2$ )

# Anhydrite ( $\text{CaSO}_4$ )

# Pyrite ( $\text{FeS}_2$ )
